Een onzekere toekomst: hoe snel smelten de ijskappen van Groenland en Antarctica?

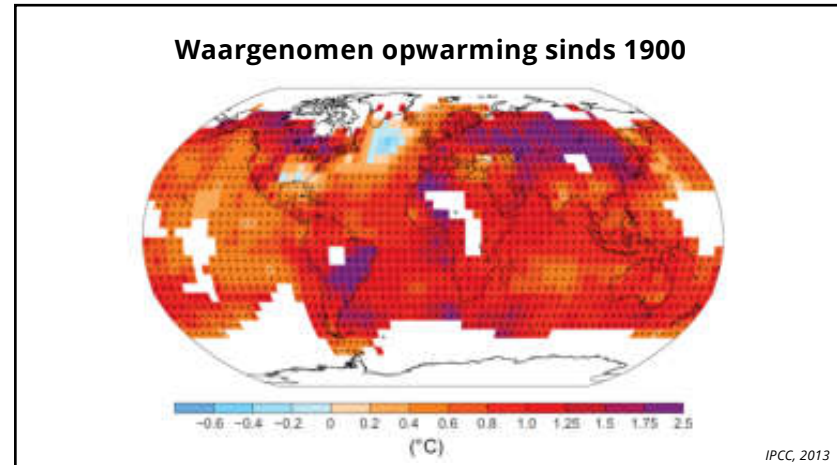

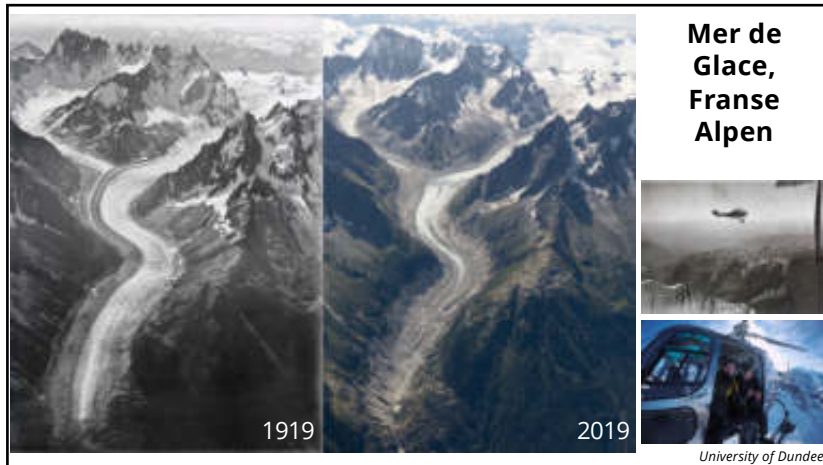

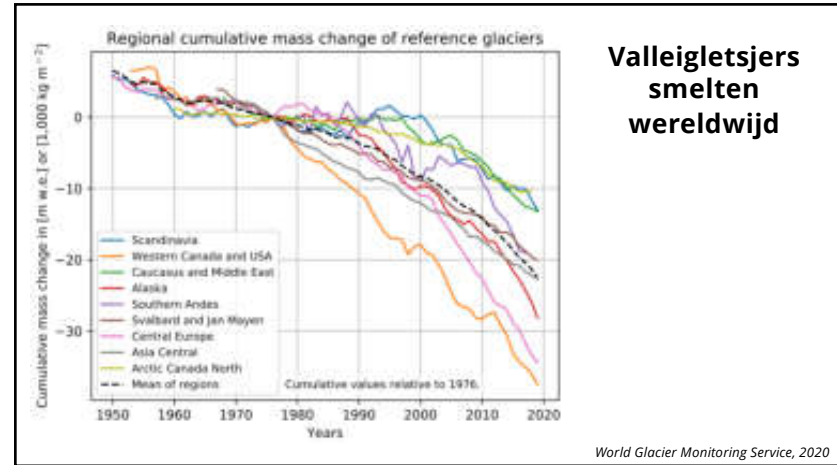

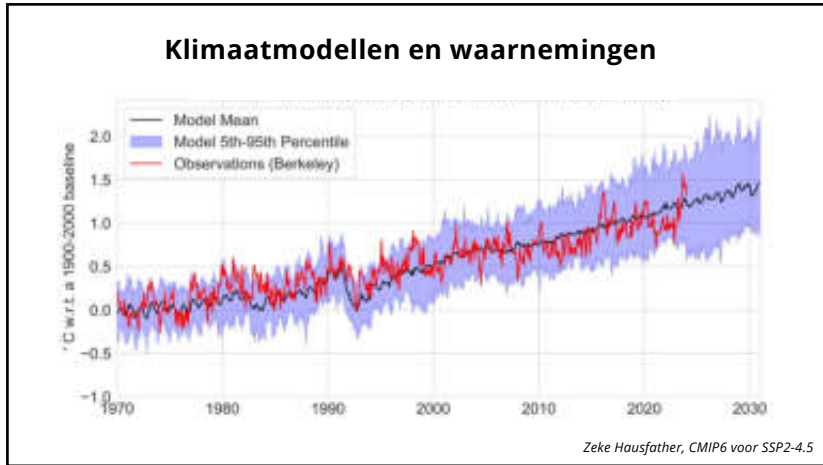

Michiel van den Broeke

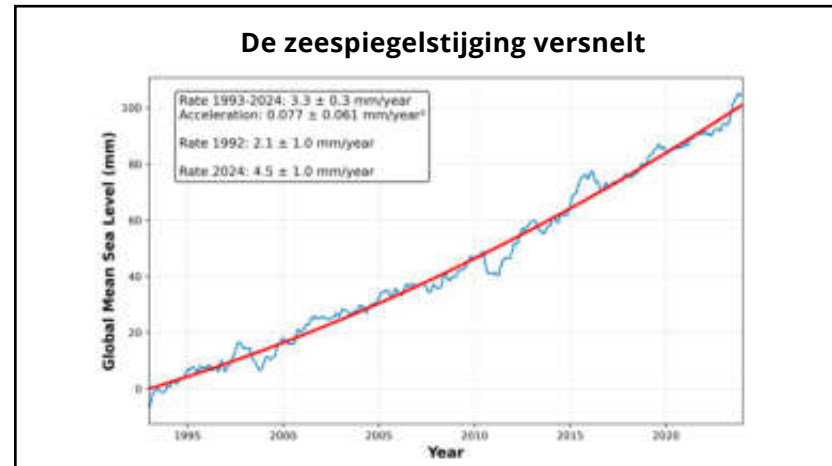

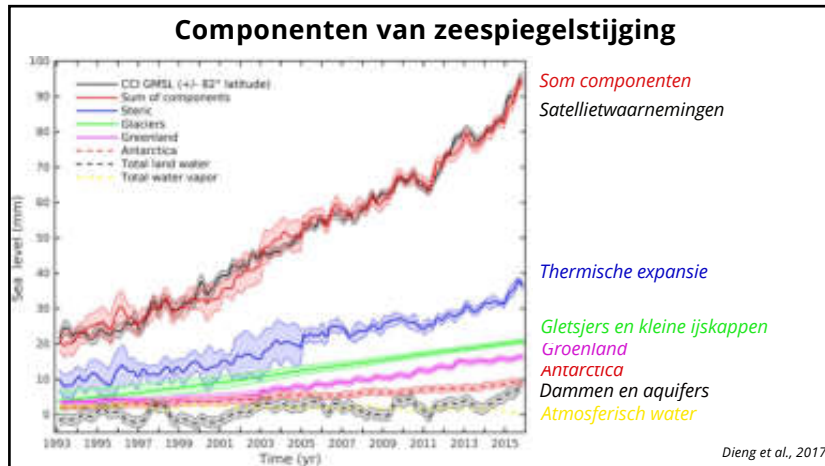

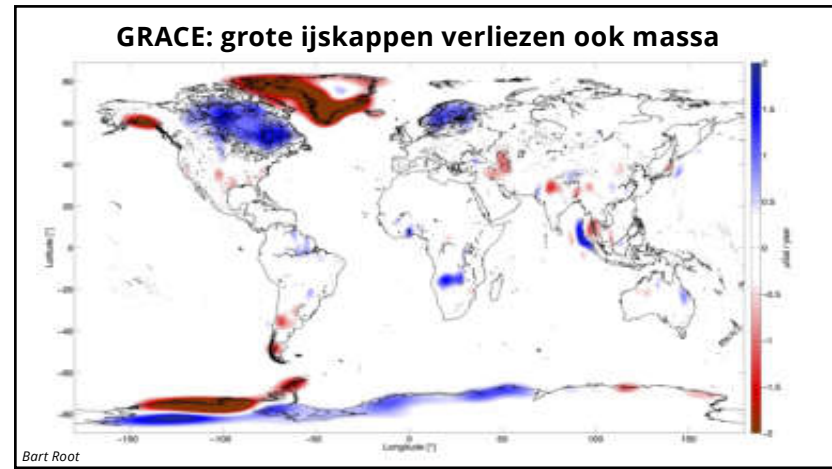

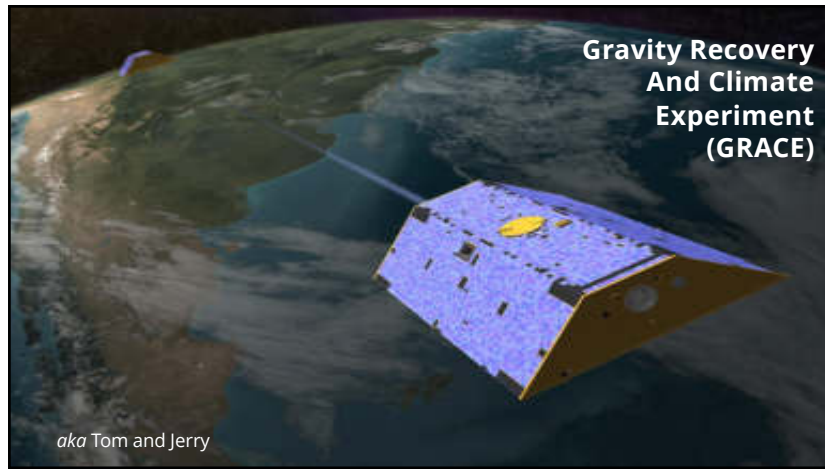

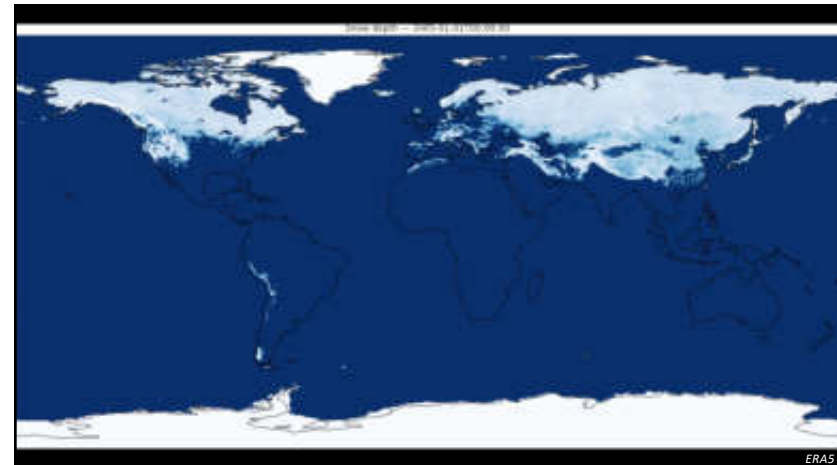

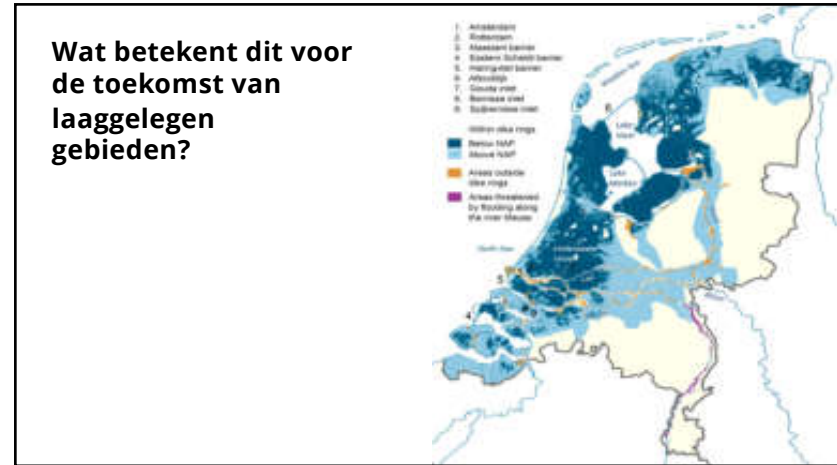

Utrechtse Universiteit

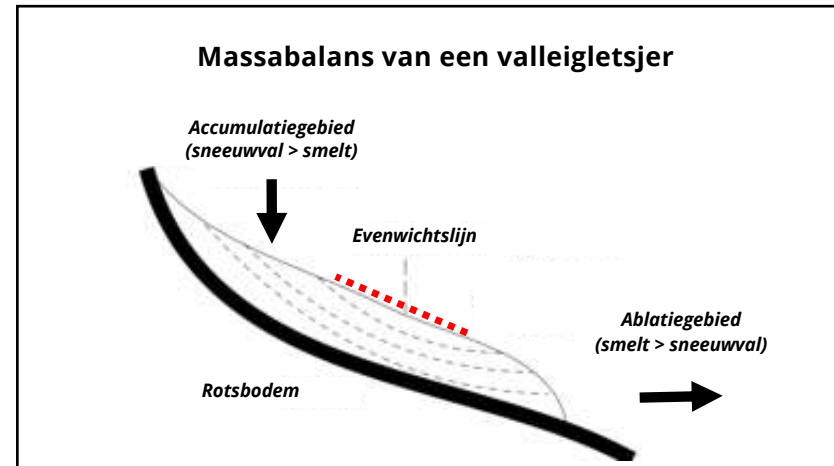

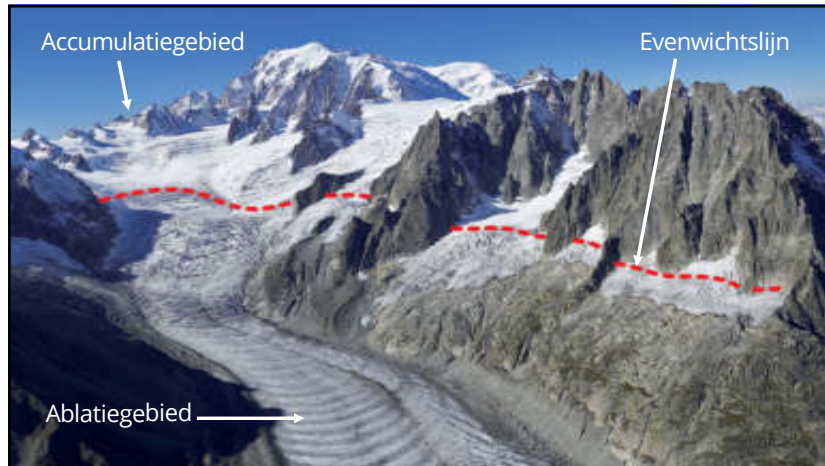

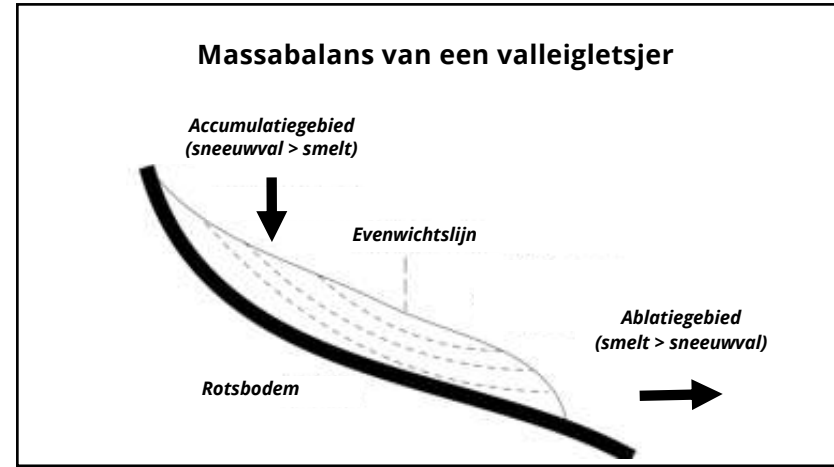

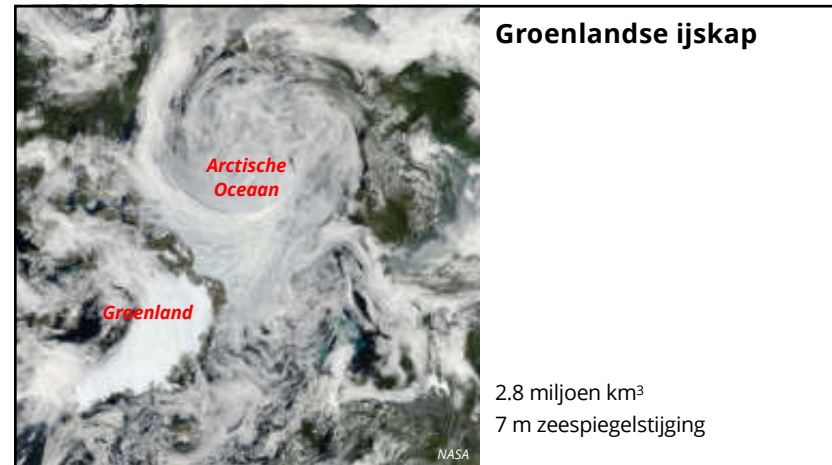

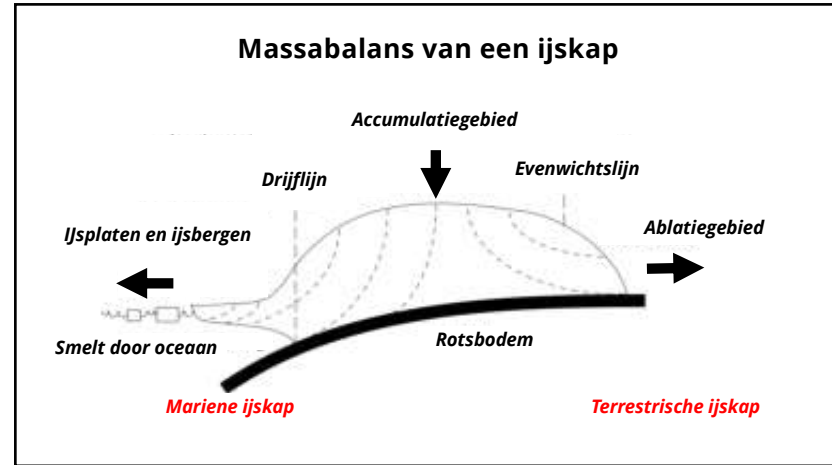

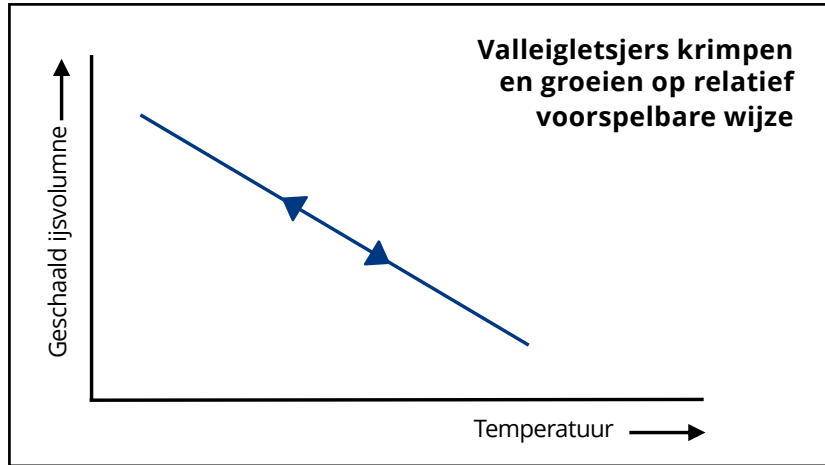

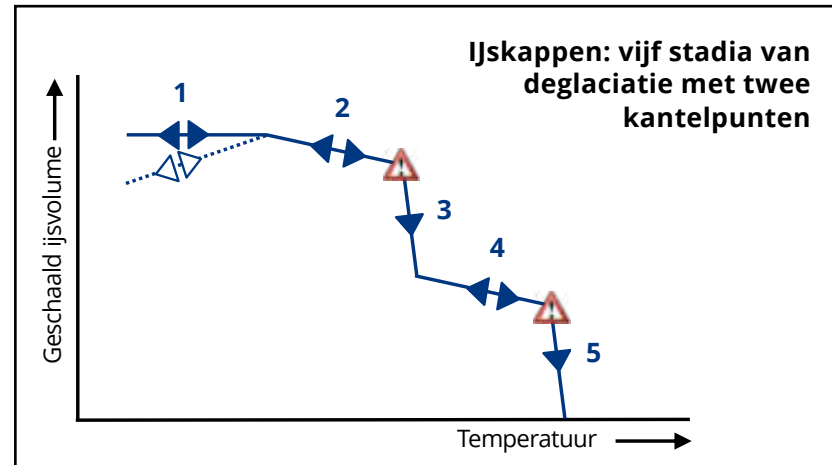

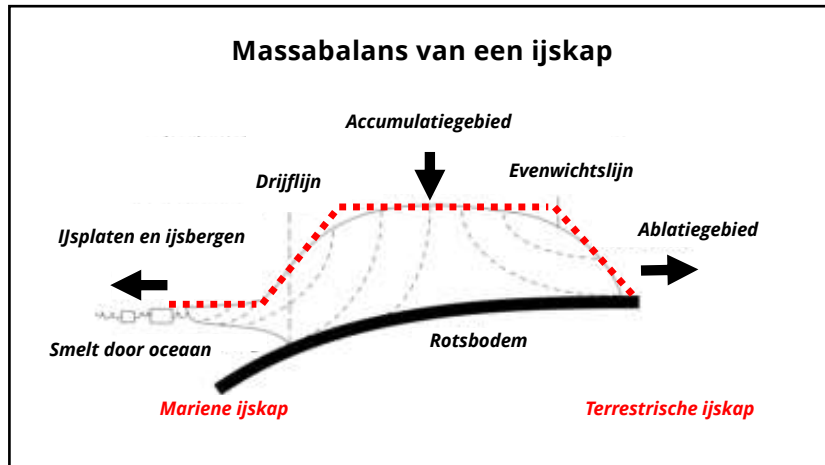

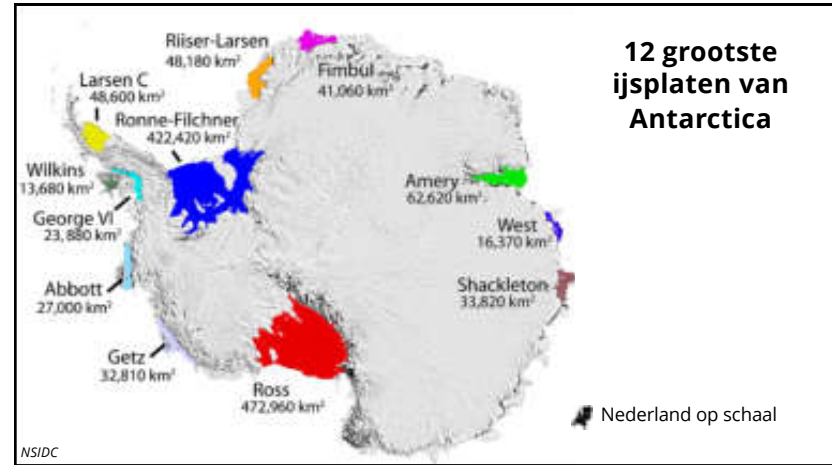

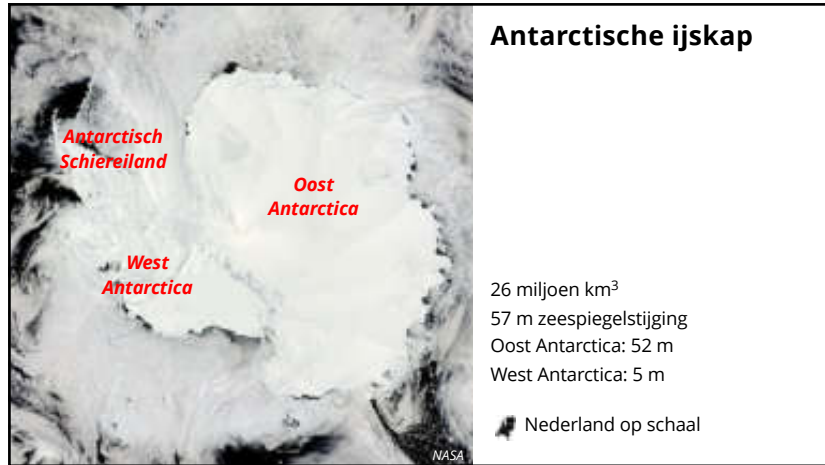

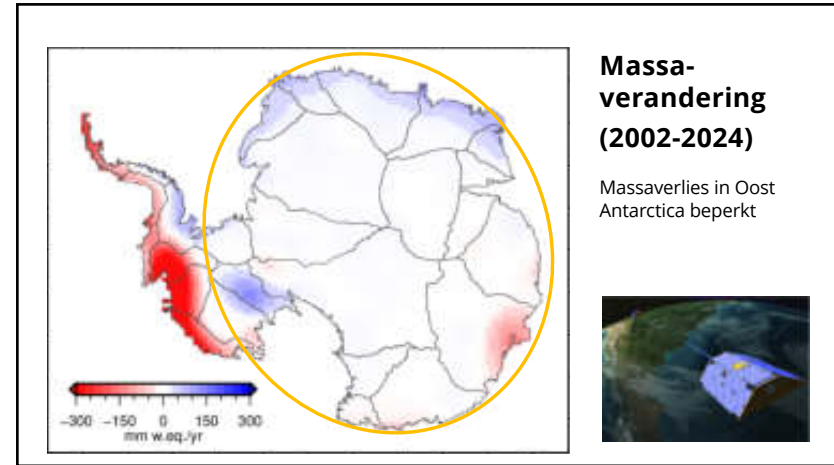

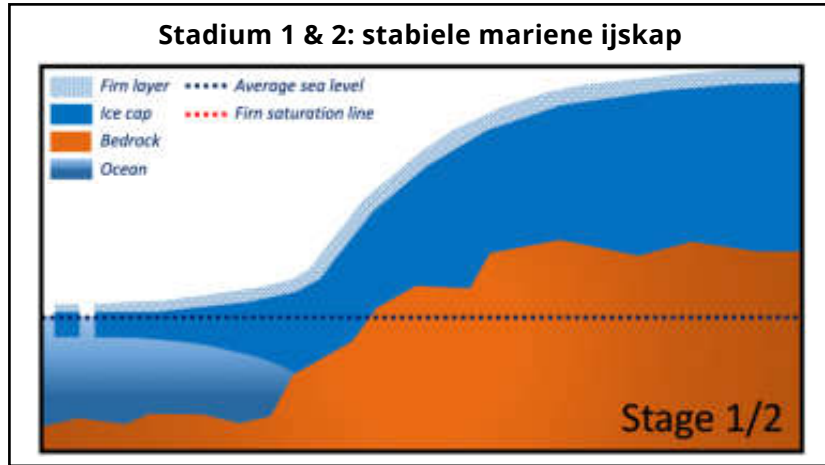

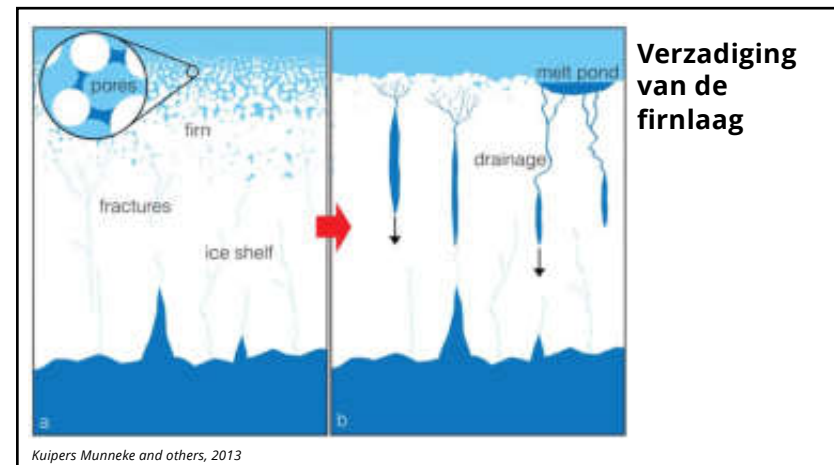

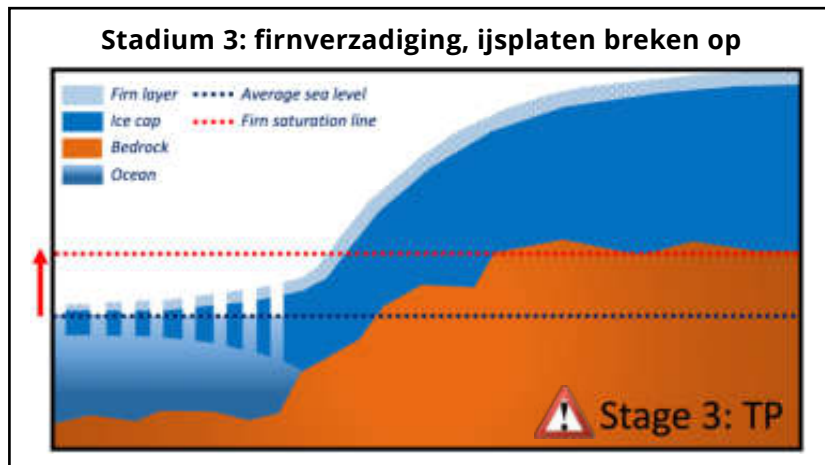

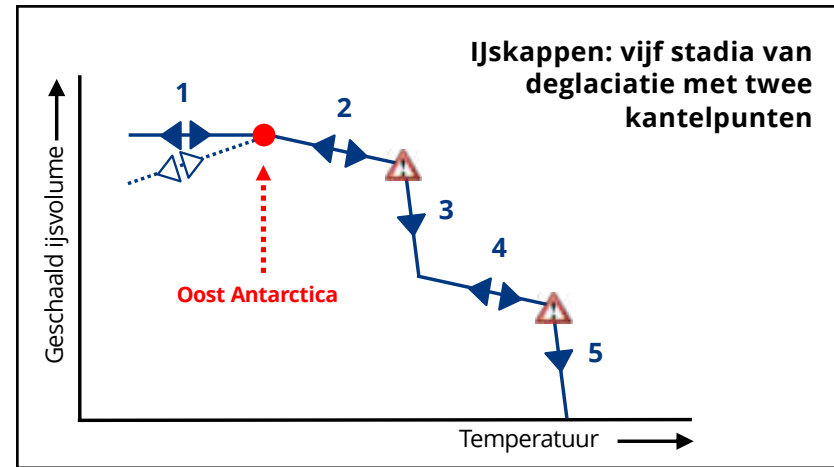

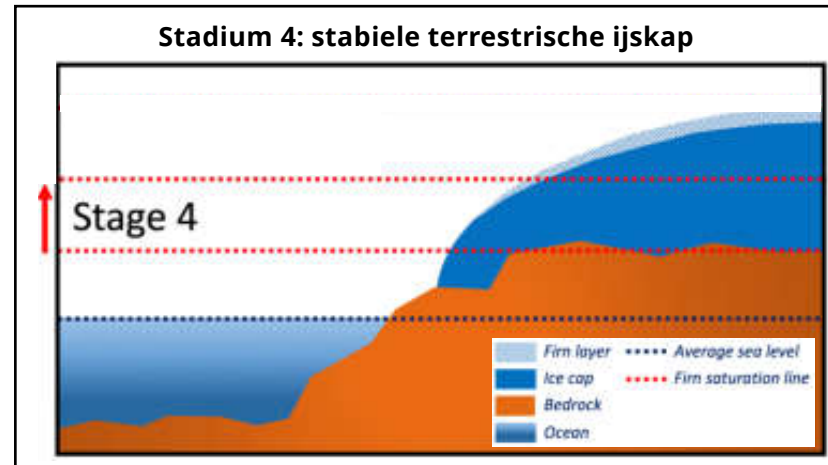

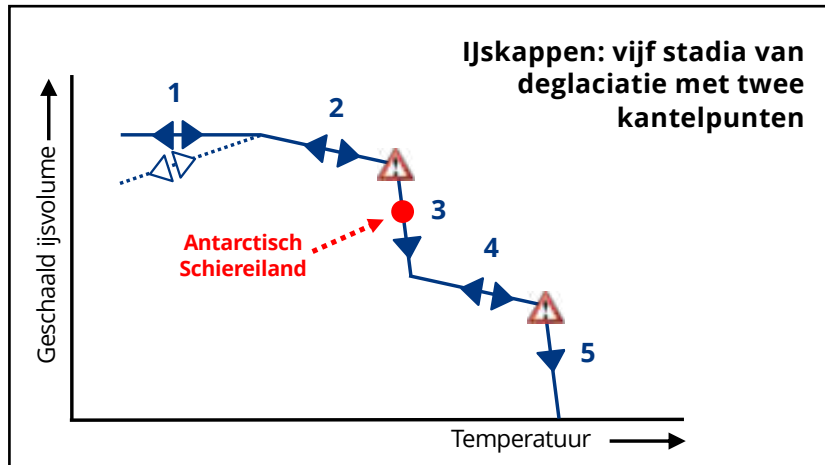

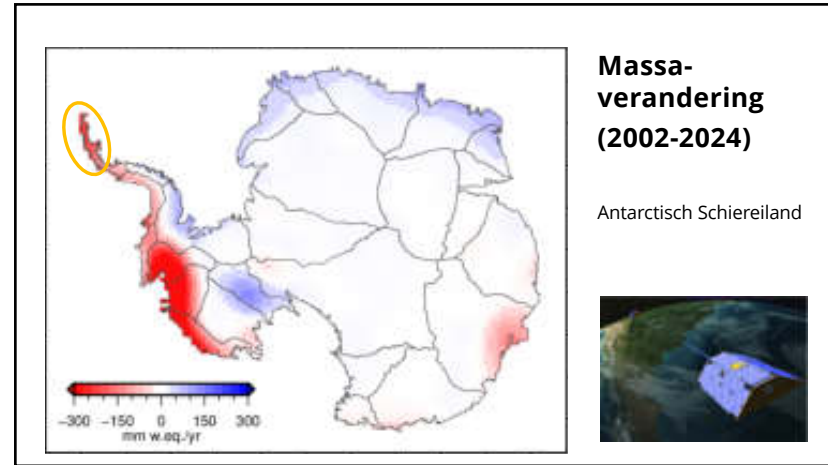

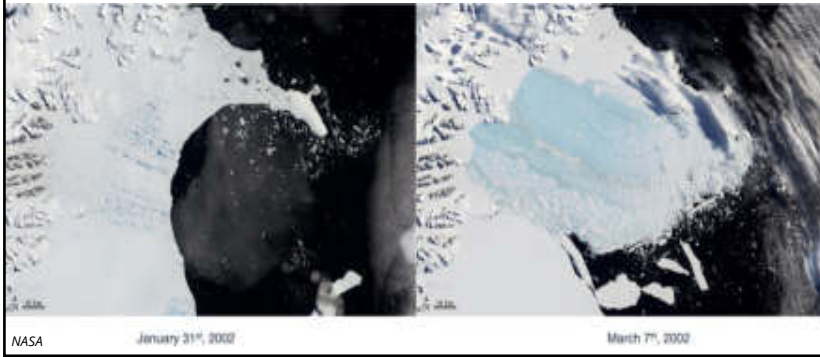

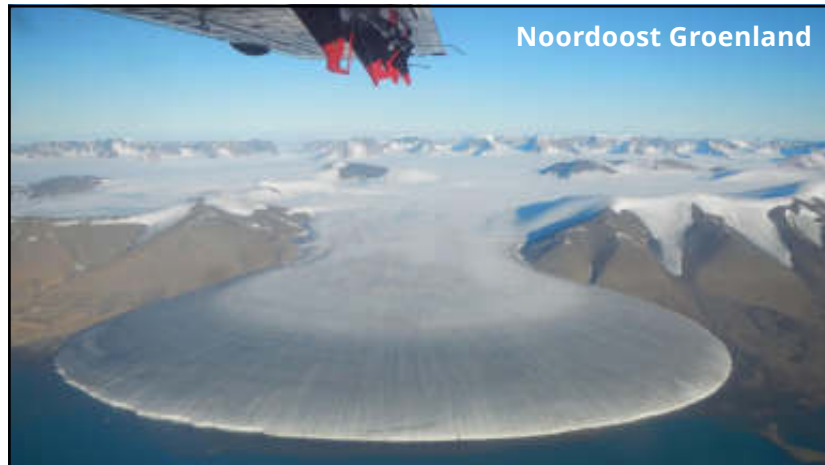

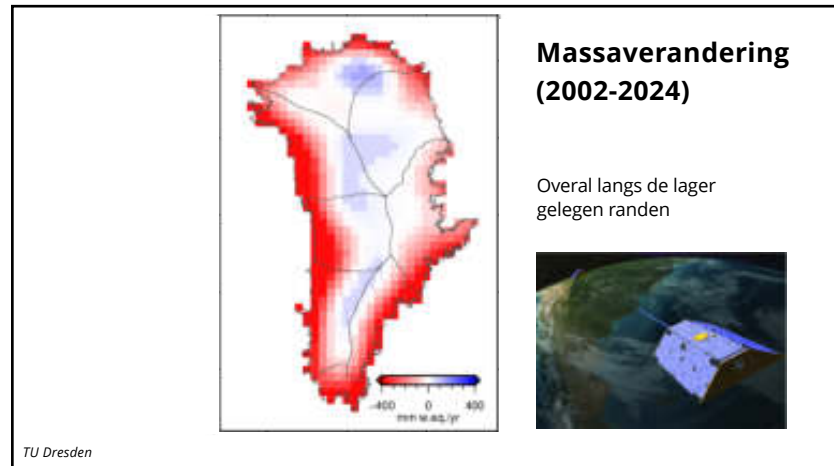

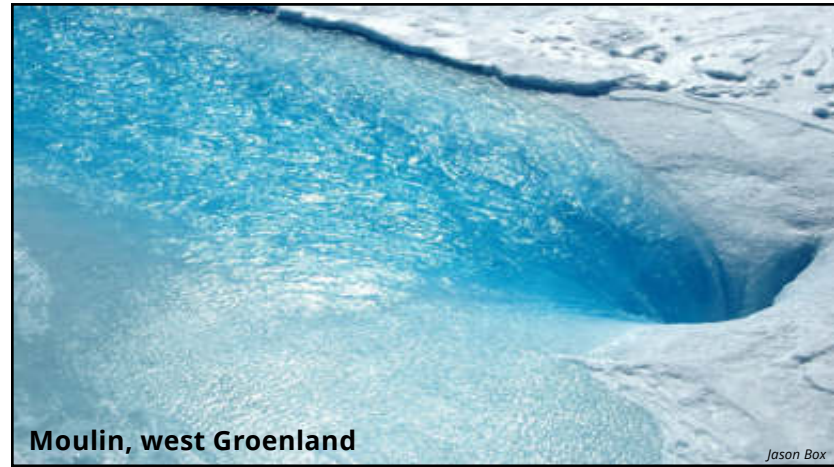

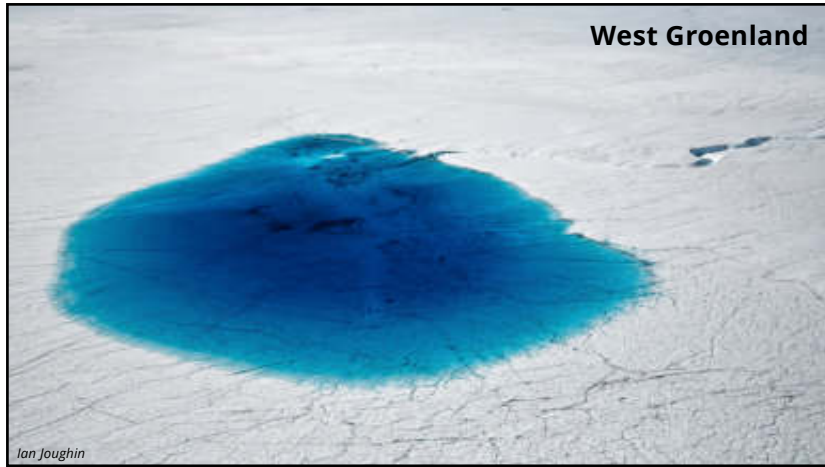

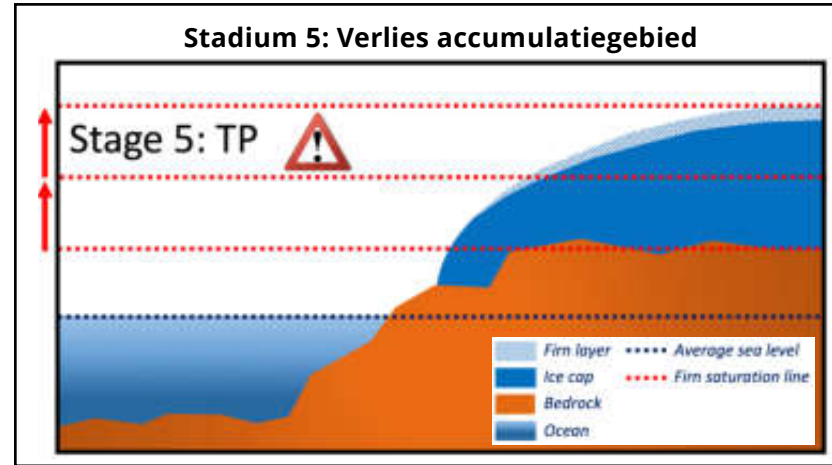

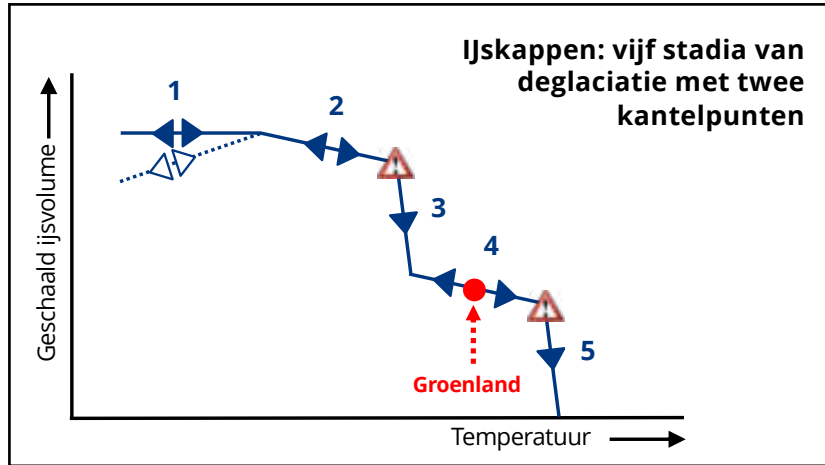

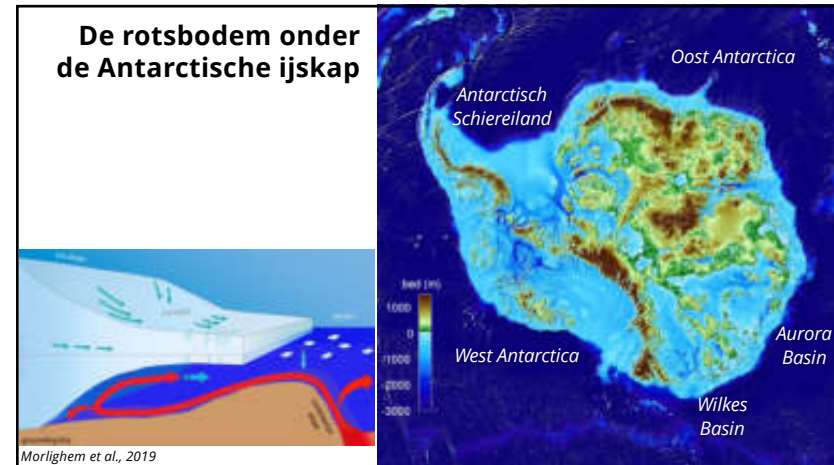

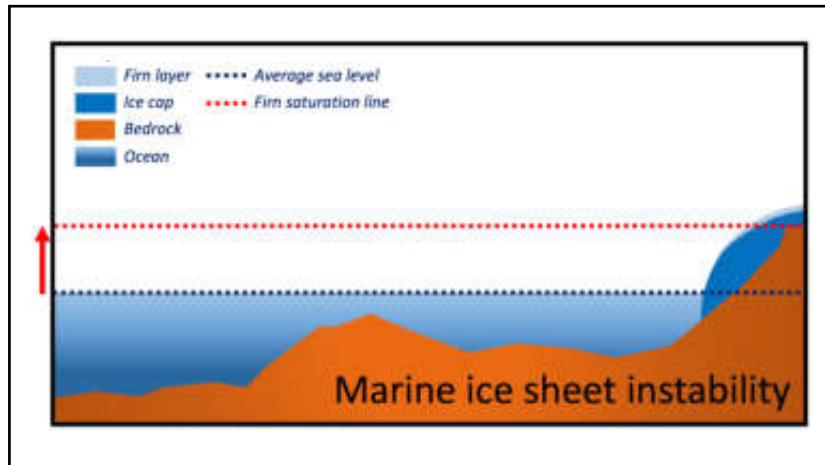

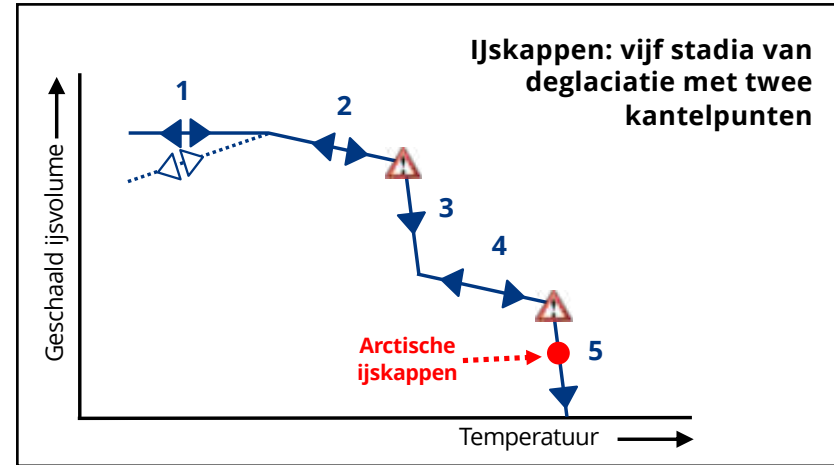

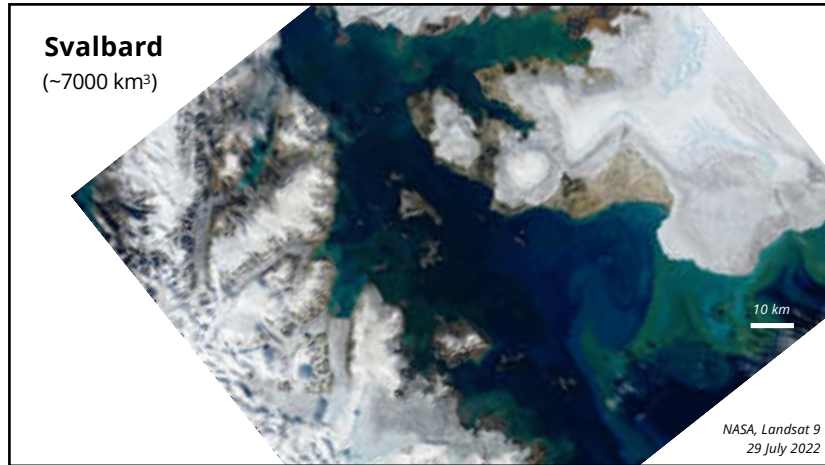

Larsen B ijsplaat, Antarctisch Schiereiland, 2002

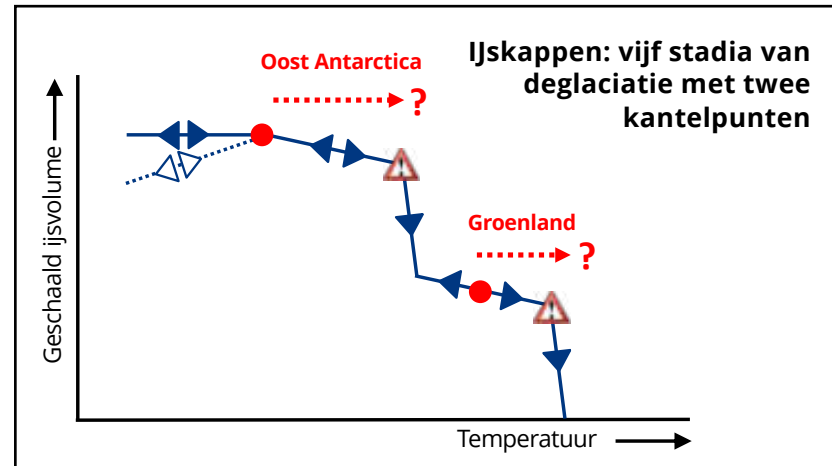

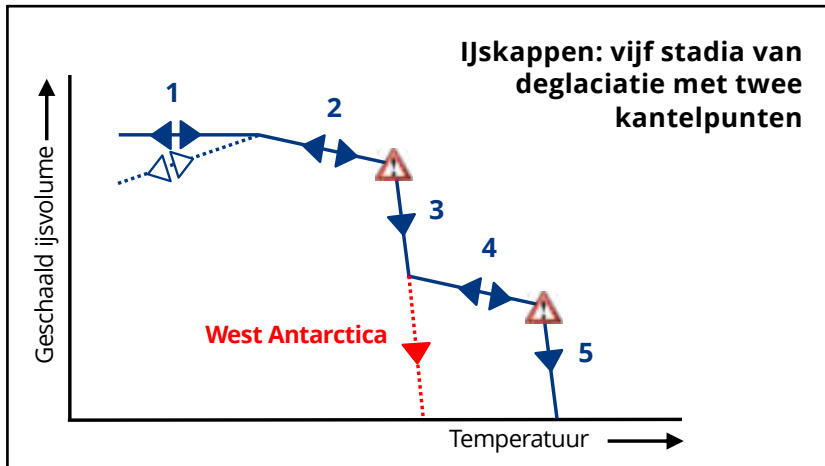

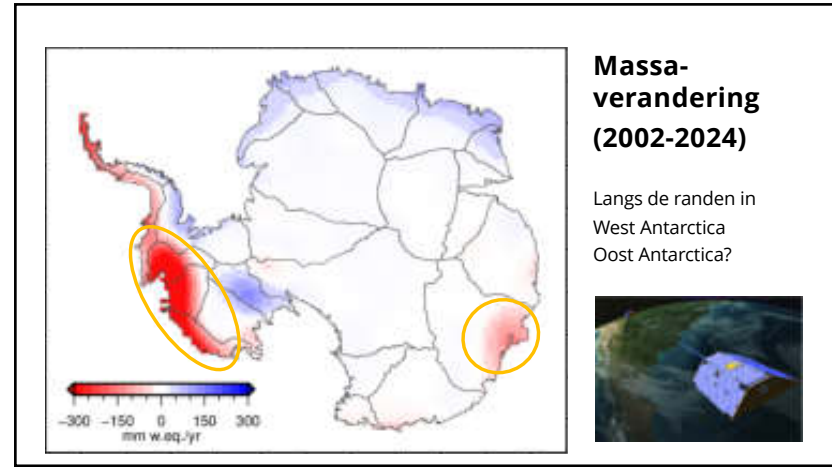

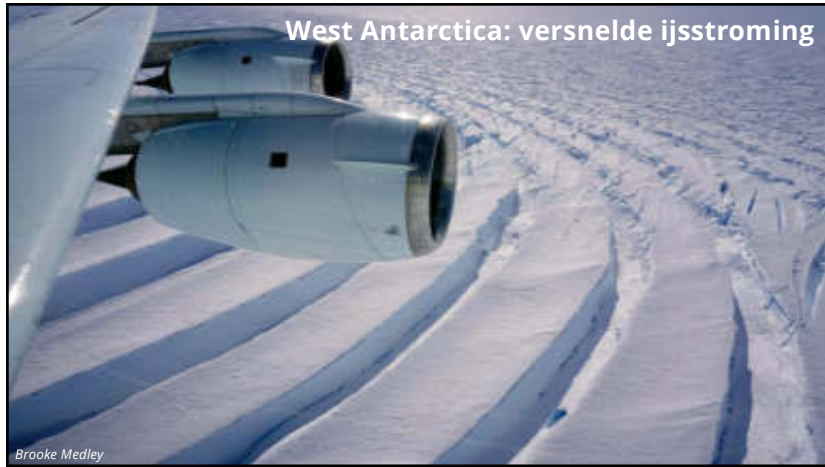

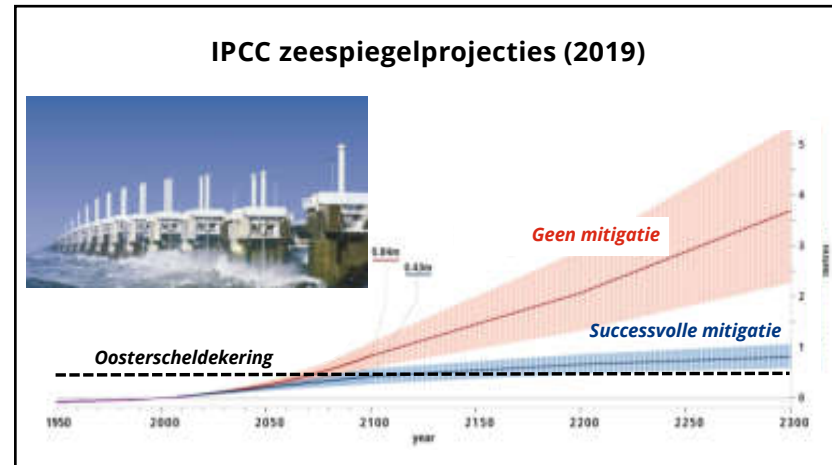

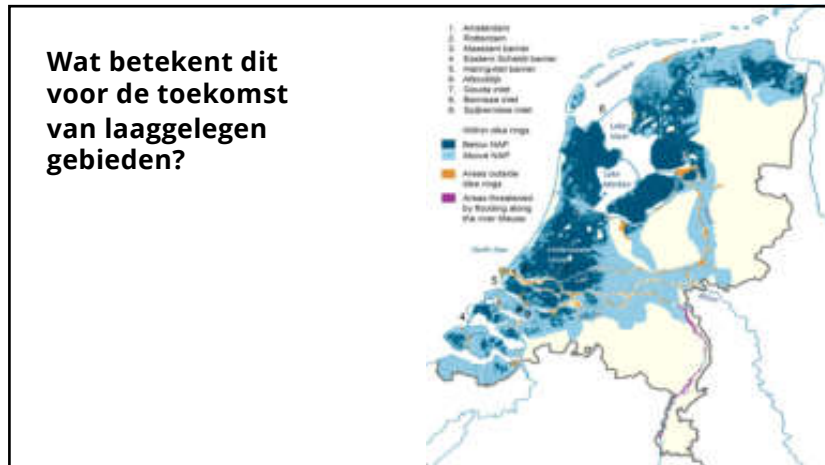

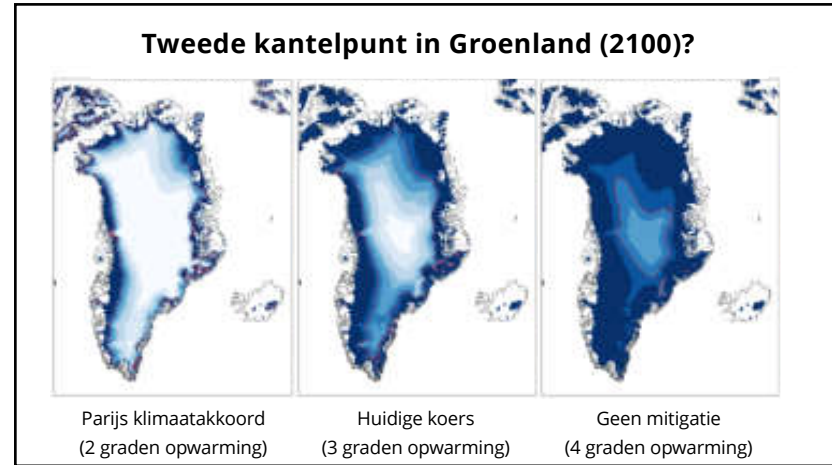

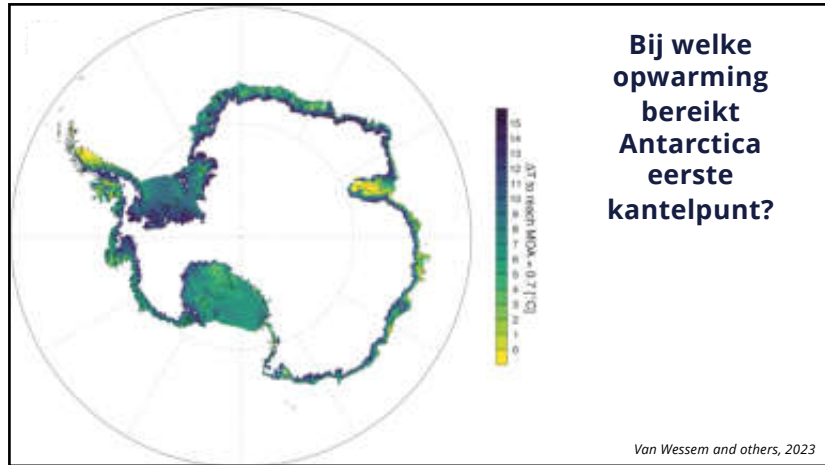

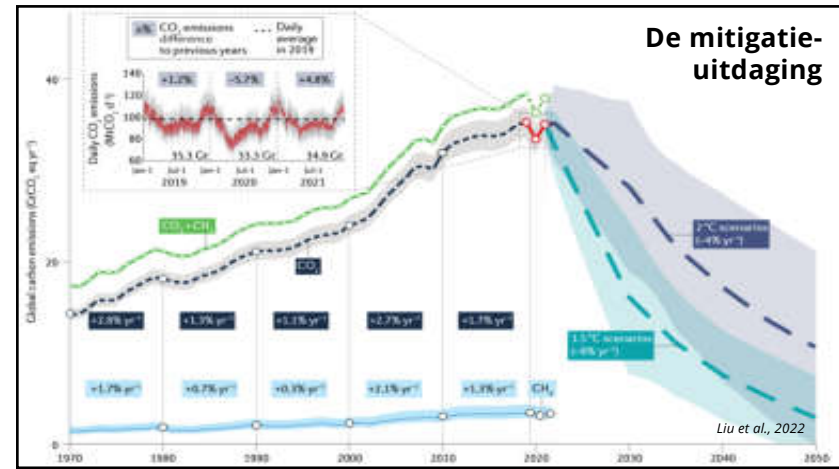

Wat betekent dit voor de toekomst van laaggelegen gebieden?

- Adaptatie**
Aanpassen Deltawerken
- Mitigatie**
Snelle reductie uitstoot CO₂ en CH₄

De adaptatie-uitdaging
